 COVER STORY

15 HOW MUCH WILL THE PERFECT DISASTER COST?
In the course of a few days, hundreds of schools in Louisiana and Mississippi were virtually erased. How will the Gulf coast rebuild its educational infrastructure?
BY MICHAEL FICKES

FACILITIES

20 GETTING PHYSICAL ABOUT EDUCATION
This unique playground initiative is giving elementary children a place to learn and play, building neighborhood pride, and providing graduation credits.
BY ELLEN KOLLIE

34 THIS WAY OUT
Current technology in life safety lighting and exit signs provides a safe haven — at reduced cost.
BY DOROTHY WRIGHT

CONSTRUCTION

25 ALL SYSTEMS GO
From the roof to the lights and everything in-between, building systems are being re-evaluated for the K-12 market. What are some changes that may make there way into your school’s next building?
BY AMY MILSHEIN

BUSINESS

28 IMPRESSIONS COUNT
According to a recent study, potential teachers are influenced by their impressions of the educational facilities in which they will be working during the interview process.
BY DR. SCOTT M. KOENIGSKNECHT

SPECIAL SUPPLEMENT

AFTE PAGE 24 SAFE AND SECURE SCHOOLS
A special supplement focusing on safety and security in schools, including useful information developing security plans, access control, and fire and life safety.

CLARIFICATION:
The description and credits for the cover of the September School Planning & Management Education Marketplace was misleading. It should have read as follows: Photos included in the cover design were provided by Fanning/Howey Associates, Inc., and Bruce Stratton Architects. Schools featured on the left are Fanning/Howey projects and include: Milford High School, Highland, Michigan (top and bottom) and Moreland Hills Elementary School, located in Pepper Pike, Ohio. The school on the right is Ross Macdonald School. Located in Brantford, Ont., and is a Bruce Stratton Architects project. We apologize for any confusion.
