**SEEDING SCHEDULE**

**SEEDING MIX A** - LOW GROW NO MOW WITH COLOR

- A mixture of low growing cool season grasses and wildflowers. This mix is designed for low to medium heavy foot traffic. Wildflowers will bloom in late spring.

**Characteristics**
- Low growing 2-3 inches tall
- Requires little to no maintenance
- Grasses will be reduced to 6 inches in height

**SEEDING**
- Not seeding directly into existing plant beds
- Overseeding suggested 1:10 for better spread

**Mix Components**
- 74% Fescue (Bendgrass, Rye Grass)
- 25% Blue Grama (Blue Grama)
- 1% Blue Grass (Blue Grass)

**Seeding Mix B** - WETLAND/DERATION

- A mixture of wetland species that are not recommended for use in Colorado. The species are non-invasive and have low water and nutrient requirements. These species include native grasses and wildflowers.

**Characteristics**
- Non-invasive 3-4 inches tall
- Requires little to no maintenance
- Grasses will be reduced to 6 inches in height

**SEEDING**
- Not seeding directly into existing plant beds
- Overseeding suggested 1:10 for better spread

**Mix Components**
- 50% Tall Sedge (Sedge)
- 25% Blue Grama (Blue Grama)
- 25% Blue Grass (Blue Grass)

**SEEDING MIX C** - LOW GROW NO MOW

- A mixture of low growing cool season grasses and wildflowers. This mix is designed for low to medium heavy foot traffic. Wildflowers will bloom in late spring.

**Characteristics**
- Low growing 2-3 inches tall
- Requires little to no maintenance
- Grasses will be reduced to 6 inches in height

**SEEDING**
- Not seeding directly into existing plant beds
- Overseeding suggested 1:10 for better spread

**Mix Components**
- 74% Fescue (Bendgrass, Rye Grass)
- 25% Blue Grama (Blue Grama)
- 1% Blue Grass (Blue Grass)
