"We especially need imagination in science. It is not all mathematics, nor all logic, but is somewhat beauty and poetry."

Maria Mitchell, Astronomer, Educator, and Civil Rights Activist

Goals:
- To create a gathering place for Mitchell Elementary School students and Cole, Whittier, and Five Points community members
- To reinforce Mitchell’s curriculum and to learn in a landscape that promotes learning through creative play
- To increase recreational and physical educational opportunities for all age groups and ability levels
- To create ideals that establish a sense of timelessness and an ability to sustain itself through change
- To celebrate Maria Mitchell and her contributions to education, science, and civil rights

Mitchell Elementary School's landscape will be a gathering place where children learn and develop identity through creative play.
Proposed Landscape Zones

low water  moderate water  high water
