Community interest is prevalent within the school. We will create a visible and experiential extension of that partnership onto the grounds.

We will reconnect the students, faculty, staff, and community to their predominant cultural and historical roots.

We will provide the students with safe, comfortable, and challenging experiences on the grounds of their school.

We will share the fundamentals of education: visible and interactive environment for the students.

Vision: We will turn Munroe Elementary into a place of civic pride for generations to come.

Goals and Objectives:
