VISION
To enhance Pioneer Charter School’s role as an incubator for student and teacher learning by creating a dynamic outdoor space that is inspirational to students, faculty, staff, parents, and the greater community.

GOALS
1. Provide and environment for dynamic outdoor explorations where children discover their place in the world and the universe beyond.
2. Create a defensible and creative gathering place that builds a sense of pride and ownership for the school and community.
3. Create a playground that is utilized year-round and encourages team play between students.

ORDERING SYSTEM

SPATIAL DIAGRAM

PROGRAM LIST

Adventure/Educational Area - TBD
Entrance Gateway
VISION
To enhance Pioneer Charter School's role as an incubator for student and teacher learning by creating a dynamic outdoor space that is inspirational to students, faculty, staff, parents, and the greater community.

GOALS
1. Provide an environment for dynamic outdoor explorations where children discover their place in the world and the universe beyond.
2. Create a defensible and creative gathering place that builds a sense of pride and ownership for the school and community.
3. Create a playground that is utilized year-round and encourages team play between students.

Curriculum Elements
1. A horizontal geologic map of Colorado painted on the asphalt that will house fellow circulation paths through the central playground. Also geologic time is depicted on seatwall with 12 geologic eras named. A horizontal map of Colorado will be depicted, showing the different ecoregions using different colors.
2. Using boulders, textures, and endemics, abstract representations of the forces that shape the earth's surface (water, wind, tectonics).
3. Compass rose will be painted on asphalt and will relate to Colorado map.
4. Imprint fossils into concrete/aspalt and associate what era
