GOALS

1. Celebrate the rich historical and cultural heritage of the Hemelnek South neighborhood by encouraging hands-on participation and interest.

2. To create spaces for children to engage in "sense of pride and ownership" through various garden sensory boxes that are integrated with play opportunities, encouraging interest and participation.

3. Reinforce curriculum with hands-on outdoor learning opportunities, as an outdoor amphitheater provides a place for gathering and learning environment outside of the classroom.

4. To create an environment that offers opportunities for group and non-programmed events.

5. To provide updated ADA standards, equipment, and green walks designed for all abilities and all-season activities.

PROGRAM ELEMENTS

- Outdoor amphitheater
- Play areas
- Green walks
- Garden
- Tables
- Shade
- Drinking fountains
- Trees
- Landscape for gardening and sensory exploration
- Separated play areas for each age group
