NOTES:
1) This play system design will meet the ADA Accessibility Guidelines for Buildings and Facilities, effective November 17, 2002, as published by the Architectural and Transportation Barriers Compliance Board, when installed over accessible surfaces, based on the following criteria:
   a) An accessible route must be provided to the play area.
   b) At least 40% of the elevated play activities must be accessible.
   c) Elevated play activities are accessible by transfer station.
   d) At least 2 types of ground level play must be provided, as required by Title 28 Code of Federal Regulations Part 35.1097.
   e) At least 20% of each type of ground level play activity must be accessible.
2) This site plan should be checked against the actual site area prior to the purchase or installation of equipment.
3) Risk zones must be installed between 12" deck increments.
4) The unit of measure located in the center of the platform indicates the height above the protective surfacing level. The protective surfacing for this design must accommodate a full height of at least 4 ft.
5) The structure size for this unit is 18' X 32' X 10', requiring protective surfacing for an overall area of 4670 sq ft. The approximate surface area is 2144 sq ft, as required by ASTM F1487-05 guidelines.
6) This structure is designed to accommodate 42 children from 5 to 12 years of age.
7) Supervise children as they play.
8) To ensure that accurate measurements are obtained from this drawing, print copies on 11 X 17 paper at full scale.
9) This design configuration is the property of this firm and Playworld Systems and may not be reproduced or used in any manner without the express written consent of this firm and Playworld Systems.

Littleton, CO 80125
Stedman Elem. Intermediate

Age Group: 5 to 12
Capacity: 63 Children
Play Events: 15 Fun-Filled Events
Structure Size: 37' x 29' x 14'
Use Zone: 53'-1" x 67'-4"
Colors: Forest Green, Yellow, Brown, Plum
NOTES:

1) This play system design will meet the ADA Accessibility Guidelines for Buildings and Facilities, effective November 17, 2000, as published by the Architectural and Transportation Barriers Compliance Board, when installed over accessible surfacing, based on the following criteria:
   a. An accessible route must be provided to the play area.
   b. Of the 1 accessible play activities, 1 must be along an accessible route.
   c. The 1 accessible play activities are accessible by transfer station.
   d. All activities of 1 type of ground level play must be provided, as required by 13 CFR Part 1191, Table 15.9.2.2.
   e. At least one of each type of ground level play activity must be along an accessible route.

2) This site plan should be checked against the actual site area prior to the purchase or installation of equipment.

3) Kick plates must be installed between 12" deck increments.

4) The unit of measure located in the center of the platform indicates the height above the protective surfacing level. The protective surfacing for this design must accommodate a fall height of at least 8 ft.

5) The structure size for this unit is 31" x 26" x 10", requiring protective surfacing for an overall use zone of 70" x 56". The approximate surface area is 3560 sq. ft., as required by ASTM F1487-05 guidelines.

6) This structure is designed to accommodate 73 children from 5 to 12 years of age.

7) Supervise children as they play.

8) To ensure that accurate measurements are obtained from this drawing, print copies on 11 x 17 paper at full scale.

9) This design configuration is the property of this firm and Playworld Systems Inc and may not be reproduced or used in any manner without the expressed written consent of this firm and Playworld Systems Inc.
