VALDEZ ELEMENTARY PARK
MASTER PLAN
Midterm Review SP05

DAVID LIECHTY SPRING 05

VALDEZ Elementary Vision Statement:

Create a dynamic landscape with an open strategy that insures the perpetuation of learning, socialization and activity through the celebration of the Colorado landscape.

Develop levels of ownership through their interaction with natural process.

Deliver usable yet flexible spaces that will accommodate multiple program and future needs.

Foster relationships between adjacencies, in situ characteristics and the interior and exterior of the schools infrastructure.

Create pluralistic educational elements that foster imagination, movement and remembrance.

Continue the dialog between the benefits of landscape and its ability to overwhelm a child’s need to create, investigate and love.

Create a landscape disposed to adapt to certain conditions and changes over time.
